**The Power of Face Reading  
your face never lies**

This post on week 349 is about one of my favorite and most fascinating subjects I have studied. When I lived in China I was introduced to Face Reading and anytime I could I would go to learn from the readers Wow, it is like they know your whole story and of your ancestors as well. A well tuned professional face reader can describe you and your ancestors

so well that it may make you feel that he or she has been involved in your life on a daily basis. It is amazing. The accuracy and finesse of the system.

You may know someone who people adore. Most likely this person isn't wrinkle-free and doesn't have perfect features according to the general model of what is perfect, this is the blueprint of our feelings and our life mapping our experiences, the day to day history of our lives, I notice when people get plastic surgery in a few months people started to go back to how they looked before, that inspired me to do some research on the source about this fact and I remember my studies on Face Reading and Bingo!! there it was we make all these lines and formations on our entire body, not just the face. Droopiness and all those details that we start resenting and disliking, but if we get to know why it is happening our perception shifts to the understanding that if we made it happen we can change it, Chinese medicine teaches all the organs involved in Skin, Muscles, and basically the whole body, and how we are fully interconnected, I notice that when I teach this subject in my classes people are very surprised. It is amazing to me that most people don't have a conscious relationship that we are fully connected to our mind, body, and spirit. For the most part, everyone is running around so fast and the common denominator is I don't have time!!!! So when we are in our heads all the time it is no wonder we feel that we get up and function all day with just our head and nowadays with the phone being attached to it. Well, dear readers that definitely is not it and if you wish to change your physiognomy and get to know more about the people you deal with in a daily basis and even the ones you don't know this post can give you a very accurate mapping, I love to be able to understand how my whole system works and many miracles happen in our bodies minute to minute. Please enjoy and share so many people can benefit from it.

**What certain areas of the face mean**

From <http://english.eastday.com>

Chinese face reading is as relevant today as it has been in the past and its use is definitely cross-cultural. We all have

a blend of elements and all faces reflect part of our nature pattern. Face reading first started in China during the 6th century BC, it was not affiliated with any religion. It is thought that they were probably Taoist shamans from rural areas such as Szechwan who specialized in non-traditional arts. By 220 BC, the art of face reading was established in Chinese life and classic tales, such as the Golden Scissors and Bamboo Chronicles, were written at this time.

Also, there were professional face readers during this time that combined the roles of priests, astrologers, and counselors. They were well-educated men with great compassion for humanity. The Chinese simply understood the concept that the face represents the story, energies, health, and fortune of a person so to live in harmony with the prevailing energies of the five elements, yin and yang, and the seasons they dedicated much time to the study of Face Reading. This wisdom has seen a huge resurgence in the West during the past 20 years with the growth of acupuncture, Chinese herbal medicine, Feng Shui and Qi Gong.

## The Principles of Face Reading: Chart from The Joey Yap Store

The starting principles of face reading that we are here discussing are the cosmic energies of the five elements and yin and yang. The elements are clear symbols and they represent qualities of energy within each person that are reflected in the face. A very elaborate physical, psychological and emotional profile can be constructed, incorporating the energies of the features, the life points of the face, the three divisions from top to bottom (forehead, midface and lower face) which show the nervous, circulatory and digestive systems and the facial zones which represent the internal organs is pretty accurate to say the least.

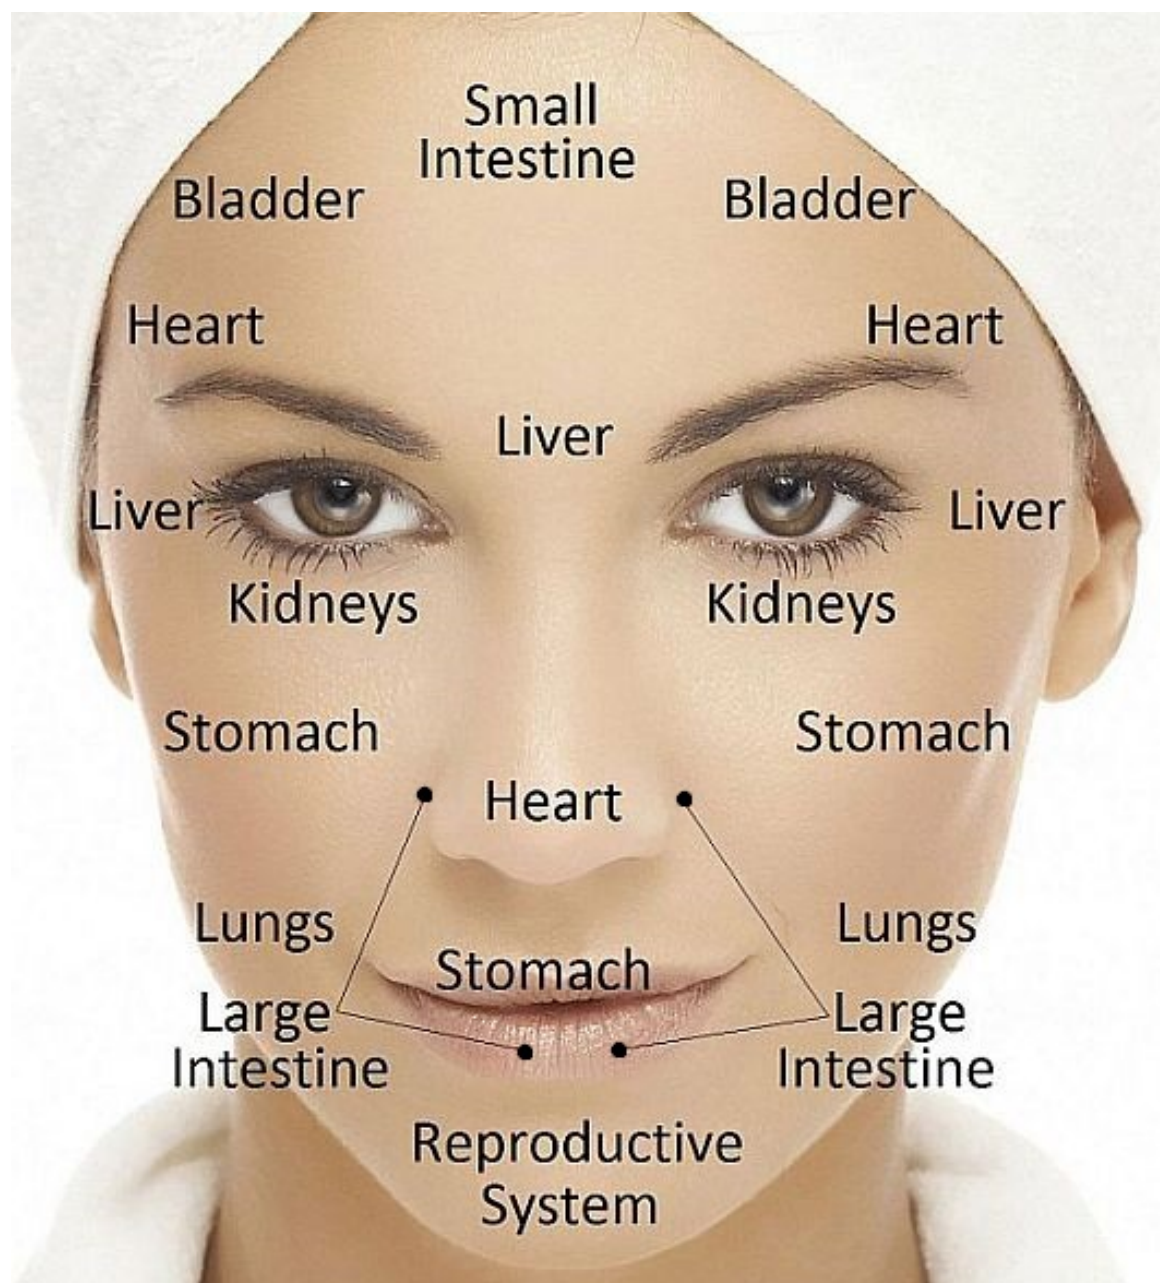

Each individual face is a map of the past, present, and future. The past is described as our inherited constitution, starting with our mother's pregnancy, our childhood, and adolescence, with each difficulty or every support in the family, and our very early years as we start out in the world. The present reflects our health at the precise time of the reading.

Coco Chanel said: Inappropriate diet, persistent negative emotions, drugs, toxins, and stress all contribute to lines, congestion, and colors on the face.

With that said the facial zones affected are related to the internal organs under stress like the rest of our physical

wellbeing. In the same way that the feet are a microcosm of the whole body in Reflexology, so the face shows the inner health status and the person behind the persona. The future is not predestined in the Chinese philosophy: acts of compassion can definitely lengthen one's life, and taking greater care with health can resolve possible future challenges. Sometimes destiny and the ups and downs of life can be improved by facial surgery? Correcting squints help one's fortunes during the years 35-40. However, nose jobs, which expose the nostrils and shorten the nose can affect the end of the 40s by creating many physical challenges.

# What Face Shapes Mean

## Round Face:

These shapes of faces are known as water-shaped faced people. They have a plump more round and fleshy face. They are known to be sensitive and caring. And the individuals that possess them are thought to have strong sexual fantasies. If you are looking forward to a long-term and stable relationship, these people are proved to be the right choice.

## Oblong Face:

The long, thin face is called in Face Reading the wood shape face. These people may have a more muscular or athletic physique. They are thought to be very practical, methodical and tend to be more overworked for the most part. They have weighed along with narcissism and most likely have problematic relationships.

## Triangular Face:

These shape types are usually related to a thin body and with a definitely intellectual persuasion. They are considered to

# **Face Shape and Profile**

## **The Broad face shape:**

Having a broad face shape means that the height and width of the face are very close to each other in length. People with a broad face are confident by nature unless for an unforeseen reason he has lost his self-confidence somewhere throughout his life. When we talk about confidence by nature, what we mean is that he's usually secure and confident about doing things for the first time; meaning he's fine with new experiences. This type of person has got good influencing abilities; he usually has a relatively larger space distance between his eyes (and has a very high tolerance) because of his broad face. This type of person may not be interested in small details but would be rather interested in the bigger picture or the full view. For example, when telling him about a car accident, don't bother telling him about the car colors because he wouldn't be interested in the details are not important to him, he may not be even interested in the car types involved he wants to get to the point. From these qualities, we conclude that someone like that would make a good manager; that's why you would notice how most managers are of the broad-faced type.

## **Thin face Type:**

The thin face is very easily noticed because it appears to be longer than most normal faces. People with thin faces have faces that are much higher in length than in its width. A thin-faced person is more confident by experience and not by nature, which means that when trying something new, they may feel afraid or anxious. If they have a small eye distance too, then they may be interested in small details. The main challenge concerning thin-faced people is fear; fear is a very

big part of their lives and this may make them stick to a certain comfort zone and curb their adventurous side completely.

## Round face:

People with round faces are very friendly by nature, and they like social gatherings and for the most part, provide a nice company. When intending to ask for help, try to choose the round-faced type because they may be friendlier than the other people around.
