Badger Healthy Body Care

Badger Healthy Body Care

Badger is a family owned, family run, and family friendly business located on the banks of the Ashuelot River in rural Gilsum, New Hampshire. Bill, Katie and daughters Mia, Emily, and Rebecca started the business back in 1995 in the kitchen of their home. Their Mission: To create fabulously pure and effective products of the highest natural quality, based on simplicity and thoughtful preparation, with the intention to protect, soothe and heal. To run a business that is fun, fair and profitable; where money is fuel, not a goal; and where their vision for a healthier world finds expression through the way they work and through the way they treat each other and the people they serve.

[Damascus Rose Antioxidant Body Oil]

Go Beyond Lotions and Creams. Body oil is the purest skin moisturizer: gentle, soothing, highly absorbent and completely compatible with your body's natural chemistry. Simple, whole, organic plant oils are packed with antioxidants, vitamins and nutrients, and are naturally good for your skin – they nourish, replenish, and soften skin, and help reduce the appearance of wrinkles, stretch marks, and fine lines. ***Damascus Rose Antioxidant Body Oil*** *with Lavender and Chamomile* honors your beautifully evolving body with the delicate fragrance and skin soothing power of Organic Damascus Rose, the flower of beauty and wisdom. Essential oil of Rose has been used traditionally to restore delicate skin, and is one of the most precious and expensive ingredients we use.
